# 1 Setting up Zedmed Clinical with HealthLink

**Please note:** You will need to have the latest version of HealthLink SIX messaging installed. The HLINK directory will need to be shared and users will need to have read/write permissions to it.

If you are unsure about whether you have the latest HealthLink SIX software, or whether you have HealthLink at all then please contact the HealthLink helpdesk on 1800 125 036

Open the **Zedmed Clinical** application. On the main window, click on the **Address Book** icon.

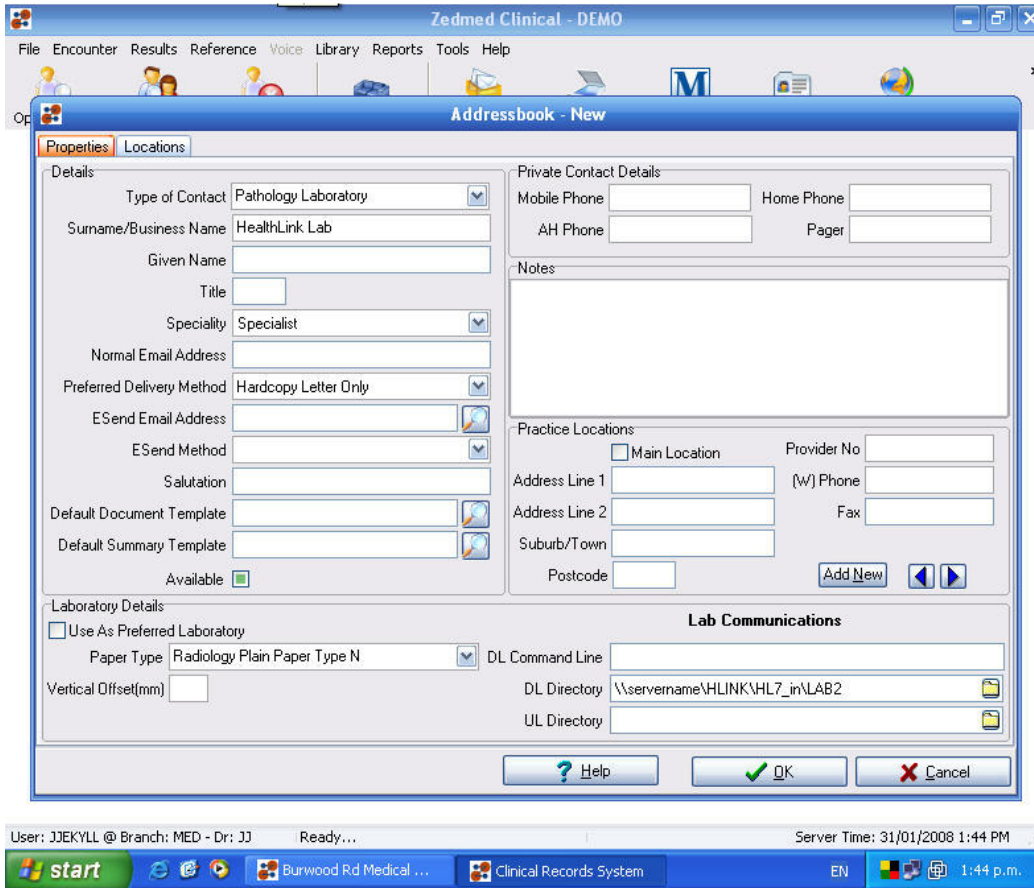

## 1.1 Setting up for Lab results

Search for the lab company you will receive lab reports from.

If the company is not there you can add a new company by clicking the **Add New** button.

Fill in the essential details. Select the **Type of Contact** field as Pathology or Radiology Laboratory.

In the **DL Directory** field put in the name of the following folder

\\servername\HLINK\HL7\_in\LAB2

Or

\\servername\HLINK\PIT\_in

Or

\\servername\HLINK\FF\_in\BROADCAST

Click the **OK** button

If the company is in the list, double click on the name of the company

In the **DL Directory** field put in the name of the following folder

\\servername\HLINK\HL7\_in\LAB2

Or

\\servername\HLINK\PIT\_in

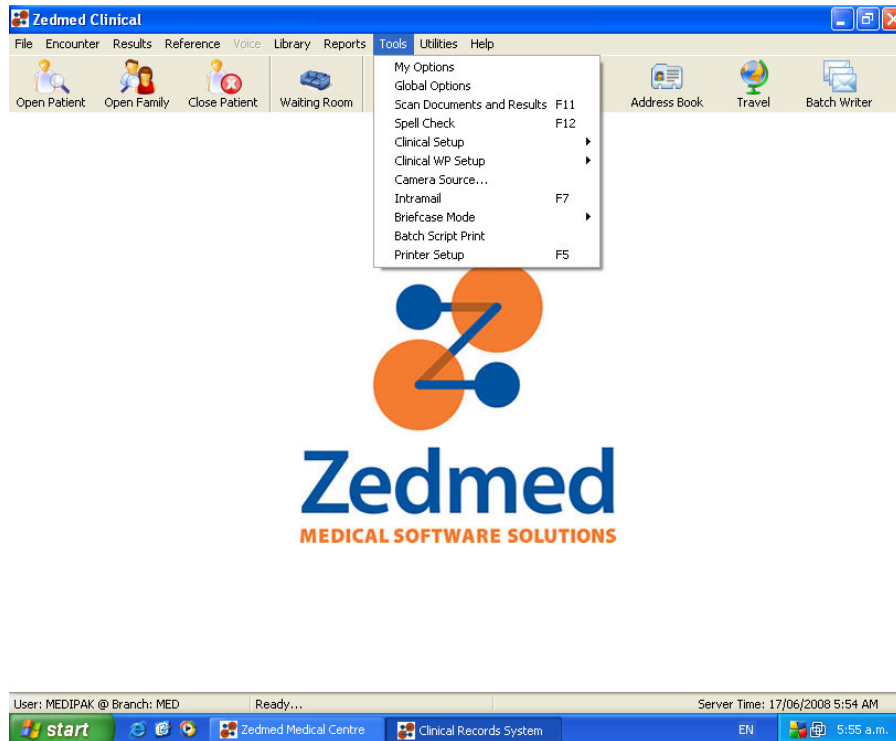

Or

\\servername\HLINK\FF\_in\BROADCST

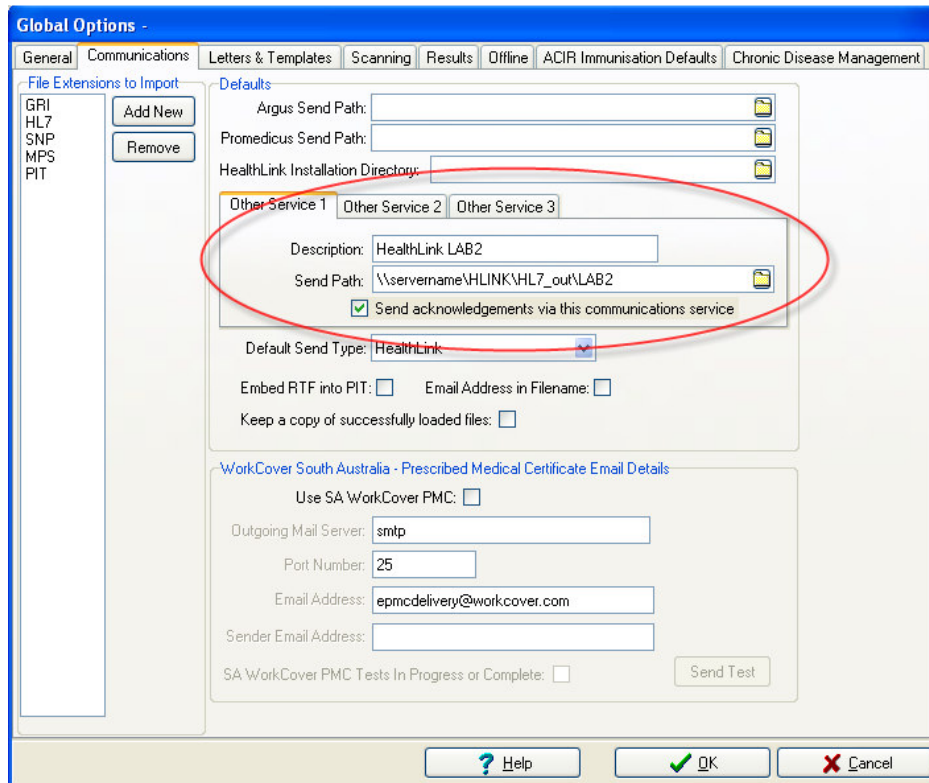

Click the **OK** button

## 1.2 Setting up for acknowledgments

Click **Tools > Global Options**

Select the Communications tab

From the **Other Service 1** tab

In the **Description** field type HealthLink LAB2

In the **Send Path** field type \\servername\HLINK\HL7\_out\LAB2

Put a tick in **Send acknowledgements via this communications service**

Click **OK**

**Please note:** *The system paths mentioned above correspond to network locations. The network locations will vary from site to site. It is best practice to use full network paths to browse to the HLINK folder location. The HLINK directory will need to be shared and users will need to have read/write permissions to it.*

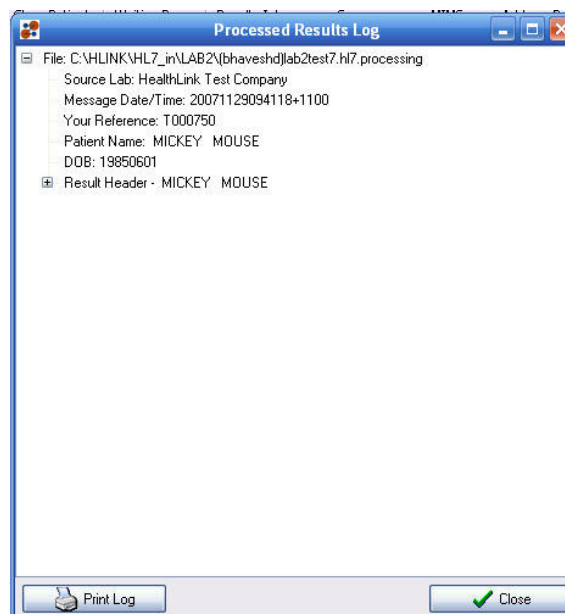

*If you are unsure about the paths mentioned above or have any other queries, please call the HealthLink helpdesk on 1800 125 036.*

## 2 Importing Messages

To “import” the messages, on the main windows, click on **Results** and then **Import Laboratory Results**.

If results have been processed and imported, you will shortly receive a log file on the screen showing which patients have been imported.

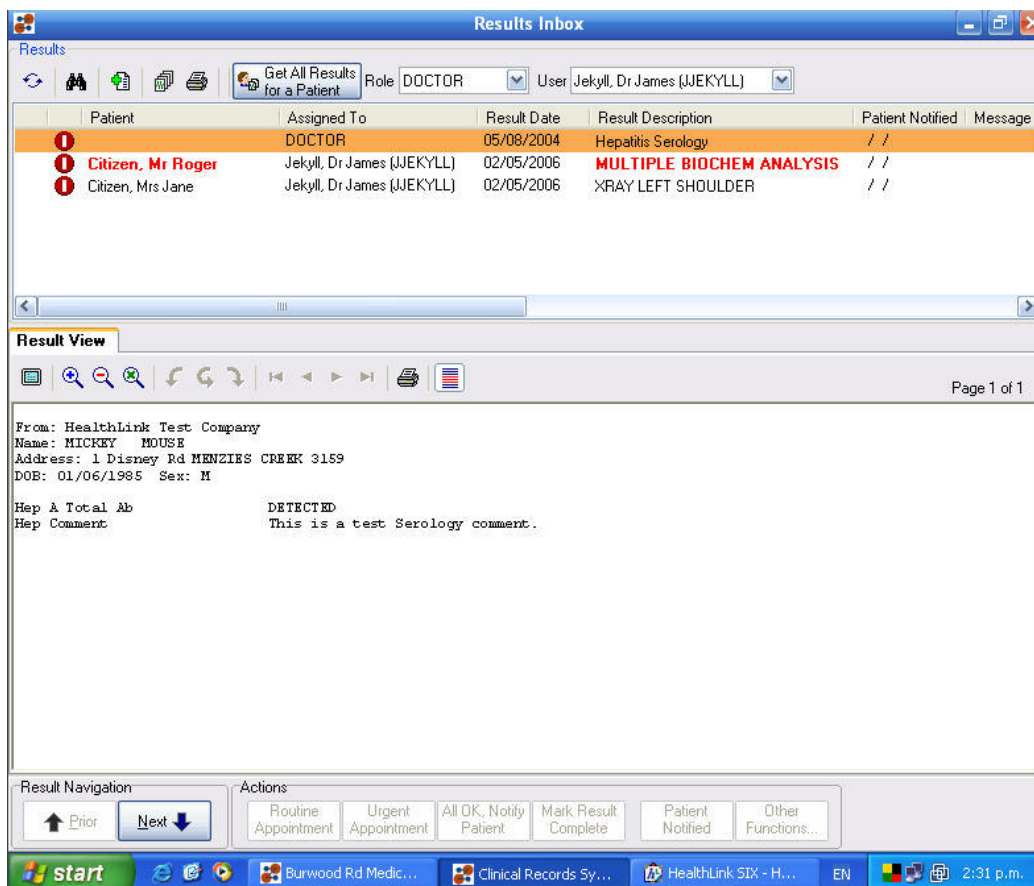

This log file is purely for informational purposes only and need not be printed or kept.

## 2.1 View messages

Click the **Results Inbox** icon

Click the desired result to view it.
