FIT Filmless Imaging Technology

You no longer have to wait for your images to be delivered to your practice.

South Coast X-ray now has the ability to deliver the X-ray, MRI, CT scan images directly to your practice management software without a fuss.

If you are an existing referral doctor at SCX and have Medical Director V3 or higher, Genie, Profile or any other medical practice management software then you are ready to take advantage of this filmless image technology delivery.

If you are not existing referral doctor and would like to take advantage of this new technology **please contact one of our friendly staff at South Coast X-ray.**
